BESPOKE KITCHEN & BEDROOM MANUFACTURER

CUSTOM-MADE CABINETS

High quality custom units produced with precision here in the UK. However bespoke your project, we can manufacture to your exact specification. We are also a very competitive supplier of standard units.

OR OFF THE SHELF OFF THE WALL

Our solutions are made for the trade.

Whether you need standard sizes or strikingly unique designs, Basically Trade will collaborate with you to enhance every last mm of storage space for your client.

Our standard units are perfect for most applications, but if your project is far from standard, we have the experience to help you solve complex issues and manufacture custom solutions for even the most bespoke projects.

It's all in the details

Drawing on years of experience in cabinet making and working with clients in varied sectors, we can help develop the best storage solution for any home or business. Basically Trade provides an impeccable finish – right down to installing pull out solutions prior to delivery. Our reputation depends on quality, so we work only with trusted partners.

Basically Trade has tackled all kinds of technical challenges, without ever compromising on quality. Basically Trade uses sustainably sourced timber to manufacture our own products right here in the UK.

Whatever style, size, colour or shape is required for your client, our precision equipment ensures a flawless finish.

Our cabinets are built to last, and designed with the fitter in mind

Celebrity designer Linda Barker's own dream kitchen

Colour-matched KITCHEN CARCASSES

Basically Trade offers made-to-measure or standard-sized kitchen carcasses made on site, right here in Lancashire.

Cabinets can be colour coded to match chosen doors and plinths, along with 2mm PVC edging tapes, so your project has a perfect finish throughout. Cabinets are manufactured in MFC (which can be colour coordinate), Plywood, Veneered MDF and paintable MDF. Unless otherwise specified, Blum fittings and drawer boxes are used as standard which come with a lifetime guarantee.

To save valuable time during installation, we can supply drawer and wall units fully assembled using rigid cam and dowel construction. Base units have adjustable height legs, and wall units are fitted with adjustable brackets.

All cabinets are supplied assembled apart from wardrobes. Kitchen and bathroom base units have adjustable legs, bedroom cabinets have gables to the floor, with side levellers.

Celebrity designer Linda Barker

eschewed big brand names to work with Basically Trade on her own dream kitchen:

“ I had a very specific idea in mind, and I needed a company that could bring the design to life without compromise. I would thoroughly recommend Basically Trade to any designer or architect, because they made it so simple and straightforward to accommodate new ideas. ”

Hiline Base Units

BEAUTIFULLY BESPOKE **BEDROOM STORAGE**

We can help you create a haven of calm and organisation for your clients.

Whether they're hanging designer dresses, or storing stacks of socks - we can work with you to create the perfect wardrobe space. However awkward the space, we can help. Talk to us about options like different depth drawers or sloped-back storage.

As you'd expect, all cabinets are colour coded throughout to match the doors, and Blum fittings are used as standard. To save time during installation, robes are supplied flat packed for easy manoeuvrability while drawer units and top boxes are provided fully assembled.

Basically Trade is committed to quality and all the units we manufacture are 18mm throughout, including backs and drawer boxes.

Don't forget the details: we can offer clear-lacquered, solid timber dovetailed drawer boxes in timbers such as Birch Plywood, Oak, Walnut, Beech and Maple, pull down hanging rails, trouser and tie storage and shoe storage.

** Prices on quotation basis*

TAP INTO TAILOR-MADE **BATHROOM CABINETS**

Create spa-like spaces for your clients, even where there's restricted room. Basically Trade's bathroom storage can be designed to incorporate pipes, sit under sloping eaves, and fit around bathroom suites for the best possible use of space.

It took a full five years of research and development to unveil our own signature bathroom furniture range which was designed in partnership with industry specialists to ensure it can take your project from acceptable to exceptional.

The Basically Bathrooms range is covered by our no-nonsense ten year guarantee which underlines our commitment to quality and durability. Cabinets are proudly made in Britain using sustainably grown materials.

With adjustable plinth heights from 100mm to 200mm, PVC-edged door options, and premium 6mm toughened glass shelves available, Basically Bathrooms can be designed to suit any suite.

In any finish and any colour, there are matching custom panels available, along with complementary towel rails and toilet roll holders. Pull out storage ensures that expensive cosmetics no longer get lost down the back of a conventional cabinet.

BATHROOM BASE STORAGE CABINET 150 - 300 wide

IMAGINE THAT

While kitchens, bedrooms and bathrooms are our 'bread and butter', we manufacture bespoke storage solutions for every room in the house, and for discerning businesses too.

Basically Trade has been praised for our useful utility room storage, multi-functional media rooms, home offices and even

hotel bars. We've created everything from tiny kitchen pods to expansive shop shelving, and our customers describe us as the 'go-to company for problem solving'.

The only limit is your imagination.

We can help with everything else.

HALSTED & WARD

BEAUTIFULLY BESPOKE PAINTED DOORS

Halsted and Ward is our premium range of bespoke painted panels and doors. These immaculate products are manufactured in house and are so beautifully finished that we're proud to put our family names to them.

Basically Trade is completely committed to quality and we went above and beyond in bringing this range to fruition: over a year of research and development, examining and comparing countless samples, continuous testing and re-testing of materials and finishes until we finally arrived at the perfect combination of product and paint quality needed for such a flawless finish.

We spent more than a year finding the perfect paint company – a family-run firm who are (almost) as passionate about the new Halsted & Ward range as we are.

We have in-house stock of the highest quality 22mm Fibralac MDF giving us complete control over quality and lead times on the Halsted & Ward range.

This made-to-measure range is available in absolutely any colour, and in the following styles:

- ONE-PIECE SHAKERS
your choice of rail widths
- J PULL
- FLAT SLAB
with 3mm Radiused front edges
- PANELS

10 year Carcass Guarantee

This guarantee does not apply to any parts, materials or equipment that are not supplied by Back to Basics Ltd t/a Basically Trade, nor does it apply to faults arising from incorrect design, poor planning, substandard fitting, insufficient maintenance or damage caused by water ingress.

We, Back to Basics Ltd t/a Basically Trade (The 'Seller') – Company Registration No 5504769, Unit 2, Wyre Street, Padiham, Lancashire, BB12 8DF hereby Guarantee that the Kitchen and Bedroom carcasses will be free from manufacturing defects in materials and workmanship for a period of 10 years from the date of delivery of the products, subject to the following conditions:

1. In so far as the terms of this Guarantee are inconsistent with the Seller's standard terms and conditions of sale, the contents of this Guarantee shall prevail.
2. Our Customer must notify the Seller, in writing, of the nature of the alleged defect within one month of the delivery date or (where the defect or failure was not apparent upon reasonable inspection) within 3 months after the date of discovery and within the period of this Guarantee.
3. The Seller shall not be liable for any defect on its products arising from any drawing, design or specification supplied by, or to our Customer.
4. The Seller shall not be liable for any defect arising from wilful damage, negligence, abnormal working conditions, incorrect design or fitting by our Customer or any third party other than the Seller. Neither will it be liable for our Customer's failure to follow the Seller's instructions (whether oral or in writing), misuse, alteration or repair of the products without the Seller's prior approval.
5. The Seller shall not be liable for normal product wear and tear as a result of general domestic use. Neither does this Guarantee apply to defects relating to other manufacturer's products.
6. The Seller shall not be liable under the Guarantee if the total price of the products has not been paid for by the due date for payment.
7. Where any valid claim regarding a product is agreed by the Seller and is based upon a defect in the quality or condition of the products or the Seller's failure to meet any specification, our Customer shall be entitled at their choice to have the original product repaired. If, from this, the claim cannot be resolved it will be directly replaced with the most similar product available at the time. No credit notes or cash refund will be given by the Seller; neither will it be responsible for the product installation.
8. Save for the Seller's obligations referred to in clause 7 above, the Seller shall have no further liability to our Customer and shall not be liable (save for death or personal injury) for consequential loss or damage, costs, expenses, or other claims for consequential compensation (whether caused by the negligence of the Seller, its employees, agents or otherwise) in connection with the supply of the products or their use or resale by our Customer.
9. Natural environmental changes, such as the passage of time and exposure to light, cause the colour of materials to gradually alter. Therefore if a replacement is required, it may not be possible to provide a new carcass which exactly matches the existing units. In this case, should the original material be no longer available, the Seller will endeavour to provide the closest possible alternative from the current range.
10. This Guarantee shall be governed by and construed in all respects in accordance with English Law.
11. This Guarantee is nontransferable and supersedes any previous agreement or contract, expressed or implied.
12. Your Statutory Rights are not affected by the Terms of this Guarantee.
